**Bright Ideas + United Innovative Technologies =
Smart Solutions for Today's Maintenance Needs**

How do you stay ahead of changing regulations for the products you use?

....Let SMART SOLVE® work for you.

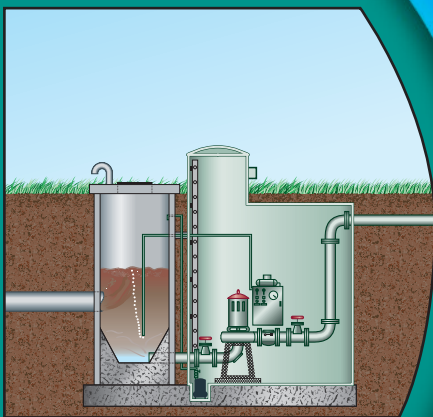

While many companies are reformulating products to simply meet changing regulations like volatile organic compound (VOC) restrictions and "green" initiatives, United's new innovative technology in **SMART SOLVE®** is leading the way to provide you with responsible solutions that exceed these requirements. Best yet, the patented **SMART SOLVE®** technology meets performance expectations needed to get the job done right.

SMART SOLVE® is:

- Earth Smart® Certified
- Bio-Based - From Vegetable Extract
- VOC-Free
- NPE-Free
- Non-Toxic, Non-Caustic, Non-Corrosive, Non-Acid
- Non-Flammable
- Free of Petroleum Distillates
- Free of Chlorinated Hydrocarbons
- Safer to Use
- Safer for the Environment

**NPE
Free**

United 604 SMART SOLVE® Lift Station Maintainer helps to control odors with its clean, fresh scent, while it dissolves and solubilizes grease accumulations in lift stations, as well as the grease accumulation on the side walls where it comes in contact.

SMART SOLVE® provides you with smart solutions for today's maintenance needs.
