

# United 850 **H<sub>2</sub>SORB** Odor and H<sub>2</sub>S Gas Absorbent

## H<sub>2</sub>S Gas in Confined Spaces Like Manholes, Lift Stations and Grease Traps Creates Serious Issues

H<sub>2</sub>S or Hydrogen Sulfide is a colorless, toxic, flammable gas noted for its foul odor. Problems caused by H<sub>2</sub>S include:

1. Foul odors that bring customer and residential complaints.
2. Corrosion of metals, concrete and equipment that deteriorates systems, creating the need for costly repairs.
3. Serious gas build-up can be harmful to your health and even cause death.

**H<sub>2</sub>S gas and odor related problems can easily be eliminated with H<sub>2</sub>SORB.**

### H<sub>2</sub>SORB...

- Is safe and easy-to-use.
- Is an activated carbon based product.
- Absorbs H<sub>2</sub>S gas and related odors.
- Works quickly.
- Is non-flammable.
- Is long lasting, working from 2-5 months.

This product is ideal for use in lift stations and manholes where H<sub>2</sub>S is a problem. Actual customer applications in manholes have reduced the amount of H<sub>2</sub>S present from 200 parts per million to non-detectable in 15 minutes, quickly changing the working area from dangerous to safe.

Let United's technical sales staff and **H<sub>2</sub>SORB** quickly help you to absorb and control your problems with H<sub>2</sub>S.
