L A B O R A T O R I E S

**United 850 H<sub>2</sub>SORB** is an odor and H<sub>2</sub>S gas absorbent. **H<sub>2</sub>SORB** will significantly reduce odors and H<sub>2</sub>S gas levels in confined spaces.

#### **H<sub>2</sub>SORB is:**

- An activated carbon based product
- Easy-to-use
- Long lasting (2 – 4 months)
- Non-flammable
- Absorbs H<sub>2</sub>S gas and related odors.

#### **DIRECTIONS:**

##### **For Lift Stations:**

**United 850 H<sub>2</sub>SORB** is removed from its container and placed into a mesh bag. The bag is suspended above the high water level in the lift station. For low H<sub>2</sub>S levels one bag is suspended about 1 foot below the lift station lid. In medium H<sub>2</sub>S levels a second bag is suspended 2-4 feet above the high water level. In heavy H<sub>2</sub>S levels 3 or more bags are suspended above the high water level. In extreme H<sub>2</sub>S conditions call for technical support.

##### **For Mains and Manholes:**

**United 850** is removed from its container and placed into a mesh bag. The bag is suspended above the water level just below the manhole lid. For low levels of H<sub>2</sub>S the bag is suspended 6 to 12 inches below the manhole lid. For heavier H<sub>2</sub>S levels more than one bag may be required and should be suspended 3 feet below the bag above it. In severe H<sub>2</sub>S applications, call for technical support.
